SOAP to wash hair

Recently, many people have suffered from calvities, breakage, frizz, dandruff and greasiness which are caused by chemical additives in the shampoo that erode the hair for a long time and clog hair scales after a short period of softness.

NThe shampoo bar is silicone free and is rich in plant-origin ingredients which can help to moisturize and repair hair strands and make the hair healthier, softer, glossier and shaggier.

It is very fragrant in the room, just the same as the feeling of the parfum.
